- Click on **Exam Results** in the **Your Details** section.

How to read your exam results

- The **first section** displays the **Certification Results**, i.e. the **overall grade** for each subject award.
- The **second section** shows unit Results that contribute to the overall awards. **For most students, this section should be blank** because unit results are not applicable for new linear qualifications. This section will only display results if you have studied a modular qualification and the exam board make those results available to centres.
