

If you are using the Teams Desktop Application please ensure it is up to date, If you prefer using a web browser please ensure it is supported.

Microsoft Teams currently supports Internet Explorer 11, Microsoft Edge, RS2 or later, Chrome, Firefox, and Safari 11.1+.

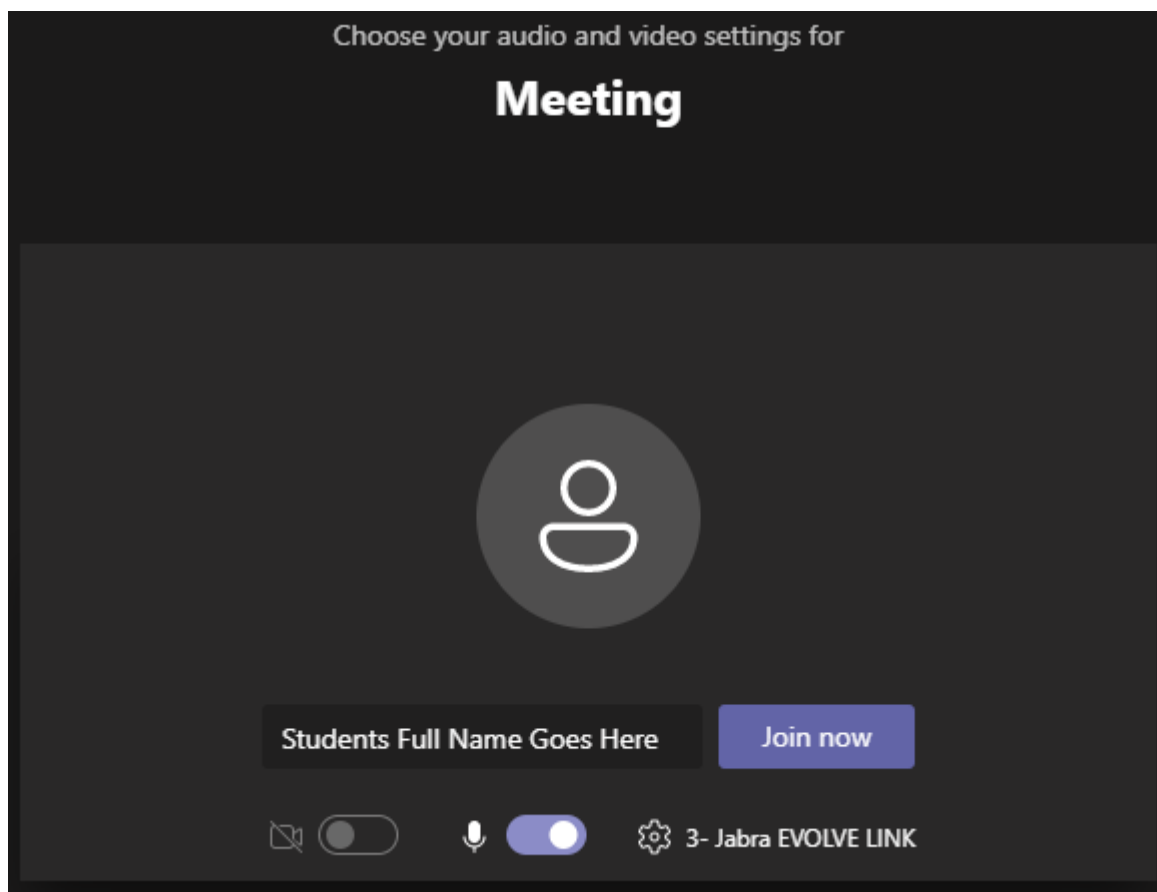

In the web browser please click on the appropriate link that you have received via email. If you have Teams Desktop installed, you will see the prompt below.

Click the option to allow teams to open links of this type. If you do not see this prompt and you preferred not to install the desktop application then select, "Continue on this browser".

At the start of the meeting you can toggle both the video and microphone option on or off, if supported by your setup. You will also be prompted for a display name; we ask that you use your full child's name.

Click the "Join Now" button to attend the scheduled meeting.
